## **DETAILED ACTION**

## Election/Restrictions

I- Species A: Figures 1-2, 3A-B, 4A-B, 5A-D.

II- Species B: Figures 6-7, 8A-B, 9A-B, 10A-B.

III- Species C: Figures 11-12, 13A-13C, 14A-B, 15A-B.

IV- Species D: Figures 16-17, 18A-C, 19A-B, 20.

V- Species E: Figures 21-22, 23A-23B, 24A-24B, 25A-B.

VI- Species F: Figures 26-27, 28A-B, 29A-B, 30A-B.

VII- Species G: Figures 31-32, 33A-B, 34A-B.

VIII- Species H: Figures 35-36, 37A-C, 38A-B, 39A-B.

IX- Species I: Figures 40A-B.

X- Species J: Figures 41A-B.

XI- Species K: Figures 42A-B.

XII- Species L: Figures 43A-B.

XIII- Species M: Figure 44.

XIV- Species N: Figure 45A-B.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1, 51, 101, 153, 172 and 190 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).

2. A telephone call was made to the applicant's representative Julian Cohen on 9/14/2006 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not

distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.
